Dear Roger,

Thank you once again for the extraordinary knowledge that you shared with me last week during the two day visit. I am extremely impressed by the consistent quality of results that you are able to obtain with your technique of fat transfer and tissue recruitment. I believe that this represents a significant advancement in the state-of-the-art breast surgery.

It was an extraordinary two day experience and I would have to say it was one of the very best learning experiences of my entire life.

Thank you so much for being an innovator and thank you for sharing your knowledge with me. Please keep me informed as you develop the equipment for your fat transfer technique as I am very interested in working with this.

Warm Regards,

John Q. Cook, M.D.
